Oral History Transcripts (63 records)

The Center for Local History's oral history program has been ongoing for over 40 years. Subjects include civic leaders, government officials, business owners, and ordinary citizens: men and women who describe firsthand accounts of their everyday lives, places, and neighborhoods. These primary documents are a rich resource for researchers as well as anyone interested in the development of the Arlington community. In addition to this online collection, transcripts of additional interviews are available in the Virginia Room, and more interviews will continue to be added to the online collection on a regular basis.
