##### RG 13: Samuel Milner National Airport Research Papers (65 records)

The Samuel Milner National Airport Research Papers delve into the history of Ronald Reagan Washington National Airport, previously Washington National Airport, as well as the previous airports in the area, Washington Airport and Hoover Field. The photographs associated with this collection have been curated from various organizations such as the National Archives and the Library of Congress and help to show the growth of the Pentagon and Gravelly Point areas of Arlington, while providing some history of the airplanes that once flew into the earlier airports.
